PROFILE

Full stack web developer and motivated student with great problem solving skill, eager to tackle real-world challenges. I thrive in collaborative environments and enjoy working with inspired teams to achieve tangible results.

EDUCATION

Bachelor of Computer Science

Addis Ababa University (4kilo campus)

Third year student with comprehensive degree in Computer Science, developing programming and problem solving skills. Passionate about maths.

Web Development

Freecode Camp (virtual education)

Solid foundation in web development. Completed more than 10 projects, spend more than 600 hr, and claimed certificate.

PROJECTS

Electronic-Food

- Developed user friendly food ordering app that have add cart, order, notification, report food features. It have also real time update that shows Food status.
- Easy to use and make communication clear between customer and hotel waitors.
- Analyse report of how many food sold in a day, week and month.

Personal Information Management System

- Developed a web application temple for a group that a user can register and edit his/her profile, see his/her friends profile.
- Used CRUD operation with Postgresql for data base management

SKILLS

- **Front End Development Skill** (with React JS, Vue js, Next js and TailWind)
- **Back End Development** (with node js and express js, currently learning go)
- **Data Bases Management skill**(with PostgreSQL)
- **Comfortable with Programming Languages** (Python, Java, C++)

PARTICIPATION

Member at A2SV Community

A2SV community highly focus on educating competitive programming and problem-solving skills. I solved more than 300+ leetcode and codeforce problems, also developing communication skill with team.
